Work experience

Manager - Cyber Security & Data Privacy Sep 2023 - present

Accenture - United Arab Emirates and Saudi Arabia

- Lead a cross-functional team in the identification and evaluation of emerging technologies for leading entities in the Middle East, ensuring the adoption of cutting-edge solutions to enhance cyber security and data privacy.
- Develop and managed strategic vendor alliances with Microsoft, BigID, OneTrust, SailPoint, and others, resulting in new business opportunities and effective go-to-market strategies centered around joint solutions from vendor technology products and Accenture services.
- Successfully sell, close, manage and deliver technical services in cyber security, privacy, and cloud, encompassing the development of strategies, compliance assessments, framework creation, and the implementation of innovative technology solutions and controls.

Manager - Cyber Security & Data Privacy Jun 2022 - Sep 2023

Deloitte - United Arab Emirates and Saudi Arabia

- Led and deliver comprehensive technical services in Cyber Security and Data Privacy, encompassing strategy development, compliance assessments, framework implementation, and innovative technology solutions and controls.
- Cultivated and strengthened strategic vendor alliances, including OneTrust, AWS, and Microsoft, to drive new business opportunities and develop effective go-to-market strategies.
- Drove business development initiatives, including client pitches, proposal development, lead generation, and upselling of Deloitte's Cyber Security, Privacy, and Cloud services, as well as vendor solutions.

Senior Consultant - Cyber Security & Data Privacy Nov 2019 - Jun 2022

KPMG - United Arab Emirates and Saudi Arabia

- Assisted our customers to enhance their security posture by providing services such as Cyber Security/Cloud Strategy & Governance and Data Privacy and Protection.
- Led several digital advisory engagements by conducting process walkthroughs, understandings, pain points analysis, to-be processes design and implementation.
- Hands on experience with Data Protection (Data Classification and Data Loss Prevention), Data Privacy, Risk Assessment, Product Management, Technology Selection and Digital & Innovation Services.

Cyber Security and Cloud Consultant Jun 2016 - Oct 2019

Cirrus, an ITG Company - Lebanon

- Reviewed, developed and updated information security policies & procedures based on local regulations and international standards (ISO 27001-27002-27017-27018-27701).
- Conducted multiple readiness and gap assessments of clients' IT & Digital policies and procedures, governance, plan and budget vis-à-vis international leading standards.
